EXTREME ANTI-HAIRBALL

Your cat is a true gourmet but is prone to hairball formation?

With tasty duck & potato JOSERA CateLux is perfect for gourmets. Thanks to the extra dietary fibre, CateLux is also the ideal food for cats with a tendency to develop hairballs.

- › with delicious duck and potato for finicky cats
- › the dietary fibre counteracts the formation of hairballs because swallowed hair moves through the digestive tract along with the special fibre. This is particularly important for long-haired cats
- › valuable fatty acids, vitamins and trace elements ensure healthy skin and a shiny coat
- › encourages a pH value of 6.0-6.5 to reduce the risk of urinary stone formation
