GRAINFREE

## DUCK & POTATO

For our connoisseurs: A natural pleasure with duck meat (the only source of animal protein) and a grainfree recipe. Valuable fatty acids and biotin also promote healthy skin and a shiny coat.

- With 25 % dried duck meat (corresponds to about 85 g of fresh meat per 100 g of dry food)
- With valuable fatty acids and biotin for healthy skin and a shiny coat
- Very good as a follow-on food from **JOSERA YoungStar** thanks to its tailored recipe

### Grainfree

This recipe does not contain any grain and is suitable as a daily grainfree food for healthy and sensitive dogs.

### Skin & coat

A shiny coat and a healthy skin are signs that your dog is receiving the ideal food. This is assured by the presence of fatty acids, vitamins and organically bound copper and zinc.

### Moderate energy content

This formula has a mid-range fat content and is particularly suitable for normally active dogs.
