GLUTEN-FREE RECIPE

SENSIJUNIOR

Highly digestible formula for rearing active breeds

A digestion-regulating growth formula for sensitive athletes, providing optimum support for healthy development. This highly digestible recipe containing tasty duck and premium salmon is excellent for sensitive young dogs, and also reduces the amount of feces.

- From 3 weeks on
- Special fibre complex helps regulate digestion
- Accompanies growing dogs all the way into adulthood
- For medium to large sporting breeds
- Valuable fatty acids support brain development and trainability
- L-carnitine, high-quality protein and taurine also support cardiovascular functions and skeletal development

Digestion control

Special dietary fibres and highly digestible ingredients regulate digestion and reduce the amount of feces.

Optimal development

Valuable fatty acids from salmon support brain development. L-carnitine and high quality proteins promote strong, lean muscles. Taurine and L-carnitine are important nutrients for the heart.

Skeletal development

A well-balanced calcium Phosphorus ratio, vitamin C, as well as manganese and copper, which are easy to absorb, support a strong bone structure and healthy joints.

*Recommended amounts are per day. The recommended amounts are based on the weight of the adult dog. During growth a moderate growth rate based on the correct energy supply is ideal. If your dog is too big and too heavy, it is recommended to reduce the feed intake. An adequate supply of nutrients is assured even in smaller portions.

Complete feed for growing dogs.
